## SIZNING VAZIFALARINGIZ (davomi)

### ☐ 4. Screenshotlar tayyorlash

KRITIK

Xcode Simulator yoki real qurilmada screenshot oling

- 6.7" (iPhone 15 Pro Max): 1290 x 2796 px — MAJBURIY
- 5.5" (iPhone 8 Plus): 1242 x 2208 px — MAJBURIY

- Tavsiya: 5-6 ta screenshot + har biriga sarlavha qo'shing
- Figma yoki Canva da mockup frame qo'shsangiz yaxshi

### ☐ 5. Privacy Policy sahifasi yaratish

KRITIK

<https://kemasman.kg/privacy> — Apple talab qiladi

- Qanday ma'lumotlar yig'iladi: ism, telefon raqam, manzil
- Nima uchun: buyurtma berish, dostavka, bonus tizimi
- Uchinchi tomonlarga berilmaydi
- Foydalanuvchi o'z ma'lumotlarini o'chirish huquqiga ega
- Aloqa: telefon raqam yoki email ko'rsating
- Claude dan yozib berishini so'rang — men tayyorlab beraman!

- Review Information: demo account kerak emas
- Contact: telefon + email
- Submit for Review bosing
- Review: odatda 1-3 kun (ba'zan 24 soat)

## MUHIM ESLATMALAR

### To'lov tizimi haqida

MBank/OBank deeplink orqali to'lov — Apple IAP talab QILMAYDI, chunki siz fizik tovar (atir) sotasiz. Apple IAP faqat digital content (subscription, in-app purchase) uchun majburiy. Review da so'rashsa: 'We sell physical perfume products with local delivery' deb javob bering.

### Background Audio haqida

Info.plist da UIBackgroundModes = audio bor. Review da so'rashsa: 'Admin records audio descriptions for products, customers can listen while browsing.'  
Agar rad etsa — audio rejimini olib tashlash mumkin (men qilib beraman).

### Admin panel haqida

App ichida admin panel bor (parol bilan). Review da Apple bu haqda so'rashi mumkin. Review Notes ga yozing: 'Admin panel is password-protected for store management. Demo credentials: password admin123 — accessible from Profile → Admin.'

### Rad etilsa nima qilish kerak

Apple rad etsa — resolution center da sabab yoziladi.  
Eng ko'p uchraydigan sabablar: screenshot sifati, metadata to'liq emas, crash.  
Tuzatib qayta submit qiling — ikkinchi review tezroq o'tadi (odatda 24 soat).

### Privacy Policy

Oddiy 1 sahifali HTML/PDF bo'lsa yetarli.  
Men yozib beraman — so'rang! Keyin kemalusman.kg/privacy ga joylang.
